

# Facilities Management Solution

Automate your custodial and maintenance management processes

- Identify and manage all spaces and critical assets
- Create, assign and track inspections & work orders
- Enhance your efficiency, safety and operational performance
- Manage your preventive maintenance (PM) program
- Complies with APPA operational guidelines

## Contact Details:

Tel: +1 800 218 3856

Email: [us.sales@touchwork.com](mailto:us.sales@touchwork.com)

## Key Features

### Web-Based

Accessible online by staff, inspectors, technicians and requesters

### Data Centralization

All managed spaces and assets identified in a single DB including GPS coordinates

### Inspection Management

Schedule, assign and distribute inspections to staff

### Smart Device Enabled

Use standard smart phones/tablets for data capture

### Work Order Management

Raise, assign and track work orders

## Key Benefits

### Increased Efficiency

Requesters submit requests themselves, quick, tracked responses

### Improved Communications

Requesters get status updates and can check status on-line

### Streamline Reporting

Easy to generate for data driven decision making

### Increase Productivity

Automate data capture and communication

### Reduce Repair Costs

Perform routine preventive maintenance (PM) and extend your asset lifecycle
